## Spotlight: Tavia

For eight years, Tavia was a stay-at-home mom in an increasingly abusive marriage, but in 2023 she found the courage to leave her husband and find a safer home for her family. She first moved in with her mother, but within a year her mother passed away. Struggling with grief but determined to build a new life for her family, Tavia and her children came to Our House, where she was one of the first families to move into our new Mabree Family House. Tavia got her older children enrolled in Our Club and her youngest daughter enrolled in Bright Beginnings, so she could focus on finding a job with help from the Career Center. Without much work experience, she had trouble finding a job, and thus she was a great candidate for our job training program. For the past three months Tavia has thrived working at our Resale Store, building her customer service skills and getting a chance to use her creativity to help design displays and dress mannequins that show off the great products available in our store. Working at the Resale Store is just the first step on Tavia's journey to a bright future for her family. She is planning to stay as long as she can at Our House, saving money, finding a career, supporting her children and making a plan for a stable future.
