Spotlight: Brenda

Brenda came to Our House in 2024 fleeing domestic violence, in a bad financial situation, and needing a safe place for herself and her children. Fortunately, our new Mabee Family House had just opened, and the Dominguez family became one of the first families to move in. Brenda's older children, Rey and Riana, got enrolled in school and Our Club, while her youngest, Reina, enrolled in Bright Beginnings program. With housing and quality childcare secured, Brenda got to work building a new life for her family. She worked closely with our Career Center team, who helped her find a job at a phone company, and begin saving money. Brenda is a part of our Stability Program and her case manager helped her find an new apartment for her family in just three months. Since moving out, Brenda has continued working with Our House to achieve her goals, including finding a childcare for Riana closer to their new home, and finding a better job. "We have tried to take that energy and structure into our lives outside of Our House," Brenda says. "We have a schedule, we have chores, we have activities as a family." Brenda also has more confidence in the workplace now: "Our House helped me reconnect with my professionalism and start building a career!"
