quality childcare to **116** children and infants

over 1,000 volunteers served 15,900 hours

398 adults found employment with 245 community employers

CLIENT STORIES

Robert & Cali

In late 2023, Robert Stevenson needed help creating stability for himself and his daughter, Cali. After searching online, he found Our House and moved into our Family House, where he accessed housing, meals, and supportive services to help rebuild their lives. "This place offers you a home, meals, a safe and secure environment, and structure to keep you focused on your goals. What else can you ask for in a time of need?" Robert says.

He enrolled Cali in our Bright Beginnings child care center and began working in our job training program at the Our House Resale Store to build skills. After six months, he secured a job through a staffing agency, saved money, and soon moved his family into their own home. Since leaving our Housing programs, Robert has continued reaching goals with support from his Stability Case Manager. He found a better home, was hired into a permanent role at UA Little Rock, and successfully advocated for Cali to attend the school he felt was the best fit. Cali is thriving in Kindergarten and attends Our Club after school, allowing Robert to keep succeeding at work. Robert credits his successes to hard work, communication, and support from Our House: "If you stay in touch with your case manager, you can go very far."

Darcey & Gabe

Life got hard for Darcey when she was seven months pregnant with her son, Gabe. She needed a place to stay, and while her sister helped look for options, living together wasn't manageable. Their housing search brought Darcey from Hot Springs to Our House, a move that changed the trajectory of their lives. As a new mom, living in the Shelter brought structure for Darcey: "It was a very positive experience," she remembers. "They helped me get into a routine and taught me skills for taking care of Gabe like safe sleep." Newly sober, that routine and stability helped Darcey stay focused. With help from the Career Center, she secured a job and maintained employment for more than three years—an accomplishment she's proud of.

After several months, Darcey and Gabe moved into their own apartment, where they still live today. Darcey is working toward her associate degree in criminal justice at Shorter College and hopes to become a probation officer to help others facing similar challenges. Gabe has been in our Bright Beginnings program for over three years, since he was nine weeks old! He receives weekly therapy services, including speech therapy, and Darcey relies on our on-site children's health clinic, which allows Gabe to be seen during the day without her missing work.

Looking back, Darcey says, "If I hadn't come to Our House, I'd probably still be homeless. Here, you can come in with nothing, and they'll give you what you need." Now, as she balances work, school, and motherhood, Darcey is building a stable future for her family.
