CLIENT HIGHLIGHT: ALEXIS

Alexis and her daughter, A’Laynna, relocated to Little Rock last year to take care of her sick mother. When Alexis was no longer able to stay with her mother, she was left without a stable home and hit many roadblocks during the height of the pandemic. A friend directed Alexis to Our House where—as a single mom facing homelessness—she got connected to our homeless prevention program, CAFSI. Alexis and her case manager, Paige, worked together to explore housing resources and connect A’Laynna to our children’s health clinic to be seen for all of her necessary screenings. They focused on mental health care, getting childcare in Little Learners, and evolving Alexis’ work experience into a long-term career. Alexis is now in nursing school at Pulaski Tech and working in a long-term care facility, all while pregnant with her second child!
