Client Highlight: Titus
For a family with three children, surviving on a minimum wage salary is nearly impossible. Titus was struggling to find work that would support both his mental health and finances, so a friend recommended that he come to our Career Center. As a parent, Titus qualified for our job training program, and he was placed in our Resale Store where he never missed a day of work! Titus worked almost every position to help him build a strong resume and make many connections with customers that led to multiple job offers. Titus ultimately interviewed with Caterpillar and was offered the job that same day! Titus now sees himself in a career position with great benefits that allow him to build his savings and better support his family. Titus’ main goal in life is to put his children through college, which he now has the foundation to do to volunteer!
